FASHION DESIGNING

In the modern world where your clothes speak more than you, NIFCA aims to be the one imparting knowledge to make you capable enough to create your own style statement and make the most out of it. We aim at students gaining valuable insight into the broad spectrum that Indian fashion encompasses through internships at leading fashion houses, manufacturing units etc to improve knowledge and overcome the practical challenges faced.

With the ever growing need for clothes, there arises an ever growing need for fashion and trends and with an ever growing need for fashion and trends, there arises an ever growing need for fashion designers and that is where we come into the picture to make sure that you make your own style statement.

Fashion designing is not all about designing clothes, it's about giving identity to a person and we are here to empower you to shape your dreams into reality!

ABOUT FASHION DESIGNING

Fashion designing is the art of applying design, aesthetics and natural beauty to clothing and its accessories. Choosing fashion designing means opening yourself to a whole new world of creativity and exposure. This field focuses on self-actualisation and unravelling the designer and the style within you to not just express yourself but make it worth a fortune.

The glamour. The fame. The art of creative details. Becoming a fashion designer promises all that and more!

WHY CHOOSE FASHION DESIGNING ?

Fashion Designing is a much sought-after career. There are many people who strive to reach the top, but not everyone can climb the ladder of success. To become a successful fashion designer, you need to juggle around many skills. After all, if you want to survive in this industry, you have to be the “best”.

A good understanding of the audience's lifestyle and customer needs and requirements is also needed in fashion design. Designers should have good communication skills and be able to express their ideas clearly. But most important, they have to be very original and have fresh, innovative ideas.

A fashion designer gets involved in wide research, optimizes the use of resources and fabric & at the same time competes with other professionals. Very often, a team of professionals get together to ideate a design or create a style to appeal the masses. The industry will throw some of the toughest challenges at you to push you to perform your best. There are the glitz and glamour of the fashion world. Aspiring fashion designers have numerous work opportunities. They can work in wide work environments in the country or abroad.

CHOOSE FASHION DESIGNING IF YOU WANT YOUR LIFE TO BE :

- CHALLENGING
- DYNAMIC
- CREATIVE
- PROFESSIONAL
- PROGRESSIVE
- HIGH-EARNING
- AT PAR WITH GLOBAL
LEVEL EXPOSURE

THE COURSE WORK

NIFCA- Institute of Fashion and Culinary Arts is among the most sort-after fashion design schools in India. The institute offers well-tailored fashion design courses for students and professionals alike, who aspire to carve a niche in the fashion business. NIFCA offers courses that are industry aligned and provide participants with the technical knowledge and understanding to resolve aspects in the fashion design and communication. The approach in the fashion designing courses that our institute offers is creative, artistic, intuitive as well as technical in design.

Our fashion design programmes train students to use colours, fabrics and ornamentation to craft different fashion items. Students can analyse recent fashion trends and learn about basic business and merchandising principles. The hands-on practice allows students to apply skills in interpreting and developing projects in the different areas of fashion, and add more value to their creativity.

Our courses of fashion basically provide insight on the following topics related to Fashion!

- Art and fashion history.
- Collection and concept development
- Digital colour and design theory
- Computer aided fashion design
- Fashion illustration
- Costume design
- Draping
- Fashion merchandising
- Fashion sketching
- Entrepreneurship
- Management
- Pattern Making
- Computer Pattern Making
- Portfolio preparation
- Principles of design
- Professional practices
- Sewing and Garment Construction
- Studio courses
- Textiles and fabrics
- Portfolio

THE COURSES

NIFCA focuses on leading the fashion industry by making it's students capable enough to handle the market and create their own style statement. Keeping this in mind, we have designed two different courses which provide you with the proper insight into the fashion designing degree and impart knowledge which is not just theoretical but practical knowledge as well.

The Two Courses are aimed and designed in accordance with the international standards so that the student is at par with the global level education and can step into the competition straight away. we have :
